

## **PRESS\_RELEASE**

NATIONAL MEET OF COTEC PORTUGAL INNOVATION

# **Displax® now member of the NATIONAL NETWORK OF INNOVATIVE COMPANIES**

**PUBLIC ANNOUNCEMENT OF NEW COMPOSITION OF THE NETWORK MADE TODAY IN THE PRESENCE OF THE PRESIDENT OF THE REPUBLIC OF PORTUGAL**

---

The entry of Displax® in this network is a reflection of its innovative attitude and activity; it's an example of creative value to the country.

With this integration, Displax® hopes there will be a strengthened cooperation between the companies of the network and its associates of COTEC Portugal, as well as COTEC Spain and COTEC Italy, which is in fact the main objective of COTEC Portugal.

The network integrates companies of different activities, such as the food, environment, biotechnological and pharmaceuticals, industrial areas, and others, but the majority of them, 62% to be more precise, belong to the information technologies.
