Cavaco Silva takes Edigma.com to Luxembourg

Displax Solutions in the show-case of the Innovative Portugal

“Portugal, more than you can imagine” is the name of the exhibition promoted by ICEP

Displax was one of the five Portuguese companies invited by the President of the Republic to be present in the “Portugal: more than you can imagine” exhibition, which will be inaugurated tomorrow by Cavaco Silva. The exhibition will be opened until the 24th of March in the media room installations of the Caixa Geral de Depósitos in Luxembourg.

The aim of this exhibition promoted by ICEP is to show to Luxemburger people a new and modern country in which it is worthy to invest. The exhibition will present projects of five of the present Portuguese companies showing Portuguese technological ability.

Being at the exhibition, this company from Braga, now present in 20 international markets, aims to reinforce its presence in Luxembourg, as well as in other European countries, such as Spain, France, Italy, Germany, Greece, the United Kingdom and Holland.

“Taking into account the fact that Edigma.com aims to expand itself all over Europe, it was with enormous satisfaction that we accepted the invitation to be present at the exhibition”, says Miguel Oliveira, CEO of Edigma.com.

We should remember that Vodafone, Benetton, Sap and Microsoft are some of the brands which have already adhered to Displax – Interactive Systems solutions.
